DETAILED ACTION

1. Claims 1-5 are pending and being acted upon.
2. In view of Applicant's amendment and response, filed 8/27/02, the previous objections to the specification and rejections under the first paragraph of 35 U.S.C. 112 are withdrawn.
3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
4. Claims 3 and 4, and newly amended Claims 1, 2, and 5, stand rejected under 35 U.S.C. 103(a) as being unpatentable over Crow et al. (March 1999, of record) in view of Damjanovich et al. (1995, of record) and Shalit et al. (1985, of record), for the reasons of record as set forth in Paper No. 7, mailed 5/17/02.

Applicant's arguments, filed 8/27/02, have been fully considered but they are not persuasive. Applicant argues that the Crow et al. reference comprises the inventors' own work, published within a year of the application's priority date, and thus, may not be used as prior art. Applicant is advised that the reference was published before the priority date of the instant application "by another", i.e., the authors of the reference are not equal to the inventors of the instant application, accordingly, the rejection is proper.

Note that Applicant's amendment of Claims 1, 2, and 5 from a method of preventing to a method of inhibiting has necessitated their inclusion in this rejection.

5. No claim is allowed.
6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
